Migrant Agencies Support Farm Workers' Union

A position paper in support of farm workers was presented by Jose Trevino, Director of the Northeast Indiana Migrant Council, at the Board of Directors meeting held on April 20, 1972. This paper explains the position of the State staff of AMOS, Inc. and of the agency staffs on the important issue of farm worker organizing. In particular, it openly supports the efforts of farm workers to form a union to improve their living and working conditions.

The following points make up the AMOS position paper:

We respect the farm worker as involved in an honorable profession.

We hold [illegible] has the right to be self-determining.

3. A conspiracy exists to deny rights of farmworker. The conspiracy pervades the local, state, and federal bill.

4. We support unionizing efforts and organized labor.

5. We systematically oppose any organized attempt by any agency (government or other) to continue the oppression of farmworkers.

6. Settlement as a program priority is inconsistent with self-determination.

7. We recognize an obligation to those farmworkers who may choose to "settle out."

8. We recognize that we are servants of the farmworkers and that we must be responsive to them.

9. We demand the full protection of the constitution of the U.S. and Bill of Rights to apply to farmworkers in accordance with their legal and moral rights.

10. We accept our responsibility that we exist for improvement of the establishment.

11. We accept the tenets of the Treaty of Guadalupe Hidalgo.

12. We reject the discriminatory pay practices that farmworkers are subject to.

13. We recognize and accept cultural differences and reject attempt to deny free cultural expression.

14. We are strict-constructionists believing in the constitution and Bill of Rights and recognize that if there were freedom of opportunity, AMOS, Inc. would not exist.

15. We demand a ban on chemical agents that are harmful to people who come into contact with them.

16. We respect and honor non-violent efforts of all peoples.

17. As advocates of the farmworkers we accept boycotts, demonstrations, protest [illegible]

Those of us who are committed to the farm workers' struggle for a better life welcome this stand taken by AMOS. The actions of the entire AMOS staff, in line with the position paper, will do a great deal to bring the day closer when farm workers in Indiana have true self-determination.

HASTA LA VICTORIA!!

ADELANTE RAZA

A los ricos y a los pobres
Se les canta esta canción
Se ha llegado ya la hora
De movernos en unión.

ONWARD MY PEOPLE

To our people rich & poor
We dedicate this song
The time has arrived
For all of us to move in unison.
